

In the field of personal protective equipment (PPE), the work gloves offered by BCL help improve the health and safety check of users, while increasing their productivity.

OUR MISSION: "Help make organizations more productive by protecting and optimizing the use of hands for their workers."

Since 1964

Three Fingers Tree Trimmer Glove

Model 15-5

All-Grain leather with **split leather cuff**

Designed for :

❖ Tree trimming

This glove is manufactured in Canada. It is designed with high quality very flexible grain leather glove, making it hypo-allergenic (to help prevent dermatitis).

It is resistant to water, oils and greases.

It is sturdy and very comfortable fit with its elastic wrist. It has a protective cuff of 14 cm (5 ½ ") with a split leather reinforcement protecting the arteries of the wrist.

Here is a glove with a split leather protective sleeve 14 cm (5 ½ ").

Mobility index allows manipulation more sophisticated and accurate that could be done with a block, for example using a chainsaw.

It is used with or without lining, for heavy work outside, such as pruning.

For protection against the cold, we suggest inserting our ambidextrous knit thermal glove model no.: 3C-K5P4) machine washable.

Maintenance: To clean these gloves, we recommend washing with mild soap. Just rub them together under running water (like washing hands), and then let them dry at room temperature. In this way, the leather will regain its original flexibility.

Characteristics:

- All-Grain leather, water and oil resistant
- 14 cm (5 ½ ") split leather cuff
- Leather guard for arteries
- American cut adjusted with elastic wrist
- Made in Canada
- Concentrates the heat
- Comfort, strength and flexibility
