

In the field of personal protective equipment (PPE), the work gloves offered by BCL help improve the health and safety check of users, while increasing their productivity.

OUR MISSION: "Help make organizations more productive by protecting and optimizing the use of hands for their workers."

Since 1964

Three Fingers Tree Trimmer Glove

Model 15-5V

All-Grain leather with Vinyl cuff

Designed for:

❖ Tree trimming

This tree trimmer glove is manufactured in Canada. It is made with high quality and very flexible grain leather glove, making it hypoallergenic (to help prevent dermatitis).

It is resistant to water, oils and greases. It is sturdy and very comfortable fit with its elastic wrist.

It has a vinyl protective sleeve of 14 cm (5 ½ ") with a backing to protect the arteries of the wrist.

Mobility index allows more elaborate and precise manipulations that could not be done with a block, for example, using a chain saw.

It is used with or without lining, for heavy work outside, such as pruning. For protection against the cold, we suggest inserting our ambidextrous knit thermal glove (model no.: 3C-K5P4) machine washable.

The insertion of a liner is convenient and makes quicker drying of the leather glove when it is wet.

Maintenance:

To clean these gloves, we recommend washing with mild soap. Just rub them together under running water (like washing hands), and then let them dry at room temperature. In this way, the leather will regain its original flexibility (this is one of the characteristics of a quality leather glove).

Characteristics:

- All-Grain leather, water and oil resistant
- 14 cm (5 ½ ") vinyl cuff
- Leather guard for arteries
- Slim fit with elastic wrist
- American cut
- Made in Canada
- Concentrates the heat
- Comfort, strength and flexibility

Available sizes: S, M, L and XL
