

In the field of personal protective equipment (PPE), the work gloves offered by BCL help improve the health and safety check of users, while increasing their productivity.

OUR MISSION: "Help make organizations more productive by protecting and optimizing the use of hands for their workers."

Since 1964

Lineman – Exterior Seams & Lined Glove **Model 168DI-5** All-Grain leather

Designed for:

- ❖ Linemen
- ❖ Works in cold conditions

This glove is manufactured in Canada. It is made with high quality and very flexible leather glove, making it hypoallergenic (to help prevent dermatitis).

It is resistant to water, oils and greases. This glove is made of grain leather, cream-colored.

It is provided with a light fireproof lining knitted with viscose FR ®, Kermel ® and Thermolite ®, inserted and sewn inside the glove.

Here is a lined glove, sturdy, high-class, for linemen. It offers dexterity, comfort and protection.

Highly visible, it has a fluorescent protective sleeve of 12.7 cm (5"), with a reinforcement of protecting the arteries of the wrist.

Maintenance:

To clean these gloves, we recommend washing with mild soap. Just rub them together under running water (like washing hands), and then let them dry at room temperature. In this way, the leather will regain its original flexibility (this is one of the characteristics of a quality leather glove).

Characteristics:

- Fireproof lining
- American cut adjusted with elastic wrist
- All-Grain leather glove, cream coloured
- 12,7 cm (5") fluorescent cuff
- Leather guard for arteries
- Grain leather, water and oil resistant
- Dexterity and flexibility
- Resistance, comfort and visibility
- Made in Canada

Available sizes: S, M, L and XL
