

In the field of personal protective equipment (PPE), the work gloves offered by BCL help improve the health and safety check of users, while increasing their productivity.

OUR MISSION: "Help make organizations more productive by protecting and optimizing the use of hands for their workers."

Since 1964

Work Mitt Model 29 All-Grain leather

Designed for:

- ❖ Heavy and general works
- ❖ Construction

All purpose mitt with winged thumb. It was created for heavy and general workshop and for outdoor work.

This glove is manufactured in Canada. It is made with high quality and very flexible leather glove, making it hypoallergenic (to help prevent dermatitis).

It is resistant to water, oils and greases.

Comfortable fit with its elastic wrist, she has a rib leather protecting seams and thicker leather to the palm.

For protection against the cold, we suggest inserting our ambidextrous knit thermal glove (model no.: 3C-K5P4) machine washable. The insertion of a liner is convenient and makes quicker drying of the leather glove when it is wet.

Maintenance:

To clean these mittens, we recommend washing with mild soap. Just rub them together under running water (like washing hands), and then let them dry at room temperature. In this way, the leather will regain its original flexibility (this is one of the characteristics of a quality leather glove).

Characteristics:

- All-Grain leather, water and oil resistant
- Selection of thicker leather to the palm
- Winged thumb
- Inside seams are protected by a rib leather
- Cream colored
- Made in Canada
- Resistance and comfort

Available sizes: S, M, L and XL
