

In the field of personal protective equipment (PPE), the work gloves offered by BCL help improve the health and safety check of users, while increasing their productivity.

OUR MISSION: "Help make organizations more productive by protecting and optimizing the use of hands for their workers."

Since 1964

Fine Leather Glove Model 417 HY

Grain leather palm and cotton back

This glove is manufactured in Canada. It is made with high quality and very flexible leather glove, making it hypoallergenic (to help prevent dermatitis).

It is resistant to water, oils and greases.

Made with a lightweight and durable grain leather, this glove is very flexible and comfortable fit with its elastic at the back.

Here is a glove designed for handling, which requires a very good dexterity and requires good protection.

To work in cooler conditions, we recommend the Thermolite ® lined version (see the model 417 HYDT).

Maintenance:

To clean these gloves, we recommend washing with mild soap. Just rub them together under running water (like washing hands), and then let them dry at room temperature. In this way, the leather will regain its original flexibility (this is one of the characteristics of a quality leather glove).

Characteristics:

- Slim fit with elastic wrist
- 227 grams (8oz.) cotton back
- Very soft leather glove
- Grain leather palm, cream coloured
- Water and oil resistant
- American cut – Made in Canada
- High dexterity
- Cool and comfortable

Available sizes: XS, S, M, L and XL

Designed for:

- ❖ Electricians
- ❖ Various work
