

In the field of personal protective equipment (PPE), the work gloves offered by BCL help improve the health and safety check of users, while increasing their productivity.

OUR MISSION: "Help make organizations more productive by protecting and optimizing the use of hands for their workers."

Since 1964

Tree Trimmer Glove Double Layer Palm **Model 418DP-5V** All-Grain leather with vinyl cuff

This glove is manufactured in Canada. It is made with high quality and very flexible leather glove, making it hypoallergenic (to help prevent dermatitis).

It is resistant to water, oils and greases.

This double palm glove is very durable, especially designed for intense work. A tough, offering comfort and dexterity.

All made of cream coloured grain leather, it has a strong cuff of 14 cm (5 ½ ") with a vinyl backing to protect the arteries of the wrist.

Tough glove for tree trimmers and other occupations requiring greater protection to the palm (e.g. handling of steel cables).

Designed for tree trimming and other works requiring a sturdy glove with forearm protection.

Maintenance:

To clean these gloves, we recommend washing with mild soap. Just rub them together under running water (like washing hands), and then let them dry at room temperature. In this way, the leather will regain its original flexibility (this is one of the characteristics of a quality leather glove).

Characteristics:

- All-Grain leather, water and oil resistant
- Double layer of leather in the palm
- 14 cm (5 ½ ") vinyl cuff
- Leather guard for arteries
- American cut with elastic wrist
- Made in Canada
- Resistance and protection
- Comfort

Available sizes: S, M, L and XL

Designed for:

❖ Tree trimming
