European homologation

- ❖ General handling which needs an excellent resistance because of the long hours of use.
- ❖ Very good comfort from the knitting glove
- ❖ General mechanic
- ❖ General handling
- ❖ Building construction
- ❖ Maintenance and cleaning

The DRIVERSUP is an excellent compromise between comfort, ergonomics, dexterity, mechanical and thermal performance.

The natural bovine grain leather brings the specific leather touch for handling.

Cleaning: To clean these gloves, we recommend washing with mild soap. Just rub them together under running water (like washing hands), and then let them dry at room temperature. In this way, the leather will regain its original flexibility (this is one of the characteristics of a quality leather glove).

Sizes* 9, 10 and 11
