European homologation

The CLEAN PU technology meets the strongest environmental requirements (according to German legislation TRGS 401, June 2008, 6-4-2 point 13 about the rate of residual solvent). The technology CLEAN PU offers an excellent grip and an outstanding abrasion resistance. Very high level of comfort thanks to the ergonomic version of our dipping moulds.

All these technologic innovations allows us to offer gloves, which combine performances, ecology, comfort, durability and grip.

Cleaning: To wash the glove and get rid of tough stains like oil stains and grease, one has only to rub hands under running warm water. This glove is machine washable at regular cycle.

- ❖ Metallurgy and metal processing industry
- ❖ Thin, precise and delicate handling of light sharp parts with an excellent dexterity
- ❖ Assembling work
- ❖ Maintenance and cleaning
- ❖ General handling
- ❖ Car industry

Sizes 9, 10 and 11
