European homologation

The CLEAN PU technology meets the strongest environmental requirements (accordingly to German legislation TRGS 401, June 2008, 6-4-2 point 13 about the rate of residual solvent). The CLEAN PU technology offers an excellent grip and an outstanding abrasion resistance. Very high level of comfort thanks to the ergonomic version of our dipping moulds.

Cleaning: To wash the glove and get rid of tough stains like oil stains and grease, one has only to rub hands under running warm water. This glove is machine washable at regular cycle.

Size 10

- ❖ Thin, precise and delicate handlings of sharp elements with an excellent dexterity
