

In the field of personal protective equipment (PPE), the work gloves offered by BCL help improve the health and safety check of users, while increasing their productivity.

OUR MISSION: "Help make organizations more productive by protecting and optimizing the use of hands for their workers."

Since 1964

Lined Jointer Glove Model N168DI-3

All-Grain leather with exterior seams

Designed for:

- ❖ Joints
- ❖ Construction
- ❖ Public works
- ❖ Exterior works

There are no leather gloves more comfortable than those whose seams are on the outside.

This glove is manufactured in Canada. It is made with high quality and very flexible leather glove, making it hypoallergenic (to help prevent dermatitis).

All grain leather; it is very soft and comfortable fit with its elastic wrist. It is resistant to water, oils and greases.

Designed specifically for the rigors of our winters, this glove is used for exterior work of all kinds. It is provided with a fire resistant knit lining sewn inside the glove. (see our model 2C-K12P5).

Highly visible, it has a 6.6 cm (2 5/8 ") fluorescent cuff. While providing the ease of the wrist, the glove has a reinforcement of protection to the wrist arteries.

For work not requiring protection against the cold, we recommend the unlined version (see model N168-3).

Maintenance:

To clean these gloves, we recommend washing with mild soap. Just rub them together under running water (like washing hands), and then let them dry at room temperature. In this way, the leather will regain its original flexibility (this is one of the characteristics of a quality leather glove).

Characteristics:

- Fire resistant knit lining
- All-Grain leather, water and oil resistance
- Cream coloured
- Fluorescent cuff of 6,6 cm (2 5/8 ")
- American cut adjusted with elastic wrist
- Leather guard for arteries
- Repels moisture
- Protects against cold
- Resistance, flexibility, comfort and visibility
- Made in Canada

Available sizes: S, M, L and XL
