

In the field of personal protective equipment (PPE), the work gloves offered by BCL help improve the health and safety check of users, while increasing their productivity.

OUR MISSION: "Help make organizations more productive by protecting and optimizing the use of hands for their workers."

Since 1964

Lineman Glove Model N418B-5

All-Grain leather with **adjustment belt**

Designed for:

- ❖ Linemen
- ❖ Shop work

Intense work requires sturdy and comfortable gloves. It also comes with an adjustment belt on the back.

Outside seams assure great strength and comfort. The seams are also protected by a ridge of leather.

This glove is manufactured in Canada. It is made with high quality and very flexible leather glove, making it hypoallergenic (to help prevent dermatitis). It is resistant to water, oils and greases.

It has a durable cuff of 14 cm (5 ½ ") split leather with reinforcement for protection of the arteries of the wrist.

For protection against the cold, we suggest inserting our ambidextrous knit thermal glove (model no.: 3C-K5P4) machine washable.

Maintenance:

To clean these gloves, we recommend washing with mild soap. Just rub them together under running water (like washing hands), and then let them dry at room temperature. In this way, the leather will regain its original flexibility (this is one of the characteristics of a quality leather glove).

Characteristics:

- All-Grain leather, water and oil resistant
- Cream coloured
- Adjustment belt
- Split leather cuff of 14 cm (5 ½ ")
- Leather guard for arteries
- Outside seams protected by a ridge of leather
- American cut – Made in Canada
- Reduces fatigue
- Resistance, flexibility and comfort

Available sizes: S, M, L and XL
