

In the field of personal protective equipment (PPE), the work gloves offered by BCL help improve the health and safety check of users, while increasing their productivity.

OUR MISSION: "Help make organizations more productive by protecting and optimizing the use of hands for their workers."

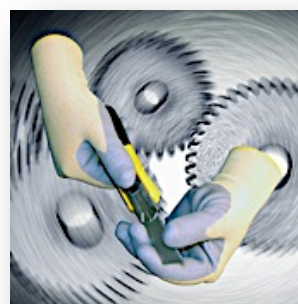

Since 1964

Cut Resistant Glove – Level 4 Model S007-4442 Kevlar HD® Knit and heat resistant

Our cut resistance glove is lightweight and ergonomic. It offers excellent grip in dry, oily or wet conditions, thanks to its coated nitrile (NBR) in the palm and fingers.

Furthermore, its knit made of Kevlar® HD (high density) from Dupont® confers resistance to heat.

Here is a Japanese designed ergonomic glove. This is a product of high technology and of high quality.

Designed for multiple tasks:

- ❖ Assembly of precision parts
- ❖ Electronics
- ❖ Automotive
- ❖ Aerospace
- ❖ Machinery

Maintenance:

To remove oil stains and grease, one has only to rub hands under running warm water. An emulsion, produced by the texture of the coating, is then created to dislodge dirt and increase the life of the glove.

Characteristics:

- Good grip in oily and wet conditions
- Gray nitrile coating at the palm and fingers
- Ergonomic, Lint-free, Repels oils and moisture
- Excellent abrasion, tear and puncture resistance
- Kevlar HD® Knit from Dupont®
- Heat and cut resistance (level 4)
- Handling of sharp and / or hot parts requiring a high level of sensitivity and dexterity

Available sizes: M, L, XL and XXL
