

In the field of personal protective equipment (PPE), the work gloves offered by BCL help improve the health and safety check of users, while increasing their productivity.

OUR MISSION: "Help make organizations more productive by protecting and optimizing the use of hands for their workers."

Since 1964

Cold and Chemicals Resistant Glove Model S021-3111 Nitrile - Impermeable

Designed for multiple tasks:

- ❖ Handling in extremely cold and wet conditions
- ❖ Handling of frozen food
- ❖ Refrigerated transport
- ❖ De-icing vehicles and aircraft
- ❖ Public works

The suppleness of our glove for handling in cold environment is guaranteed to -30 degrees Celsius. Because of its unique properties, it can be used in cold storage areas and for de-icing aircraft.

Like our unlined model S020-4111, this nitrile glove is impermeable to many chemicals such as acetone, paint thinner, petroleum products and many acids. Here is a Japanese designed ergonomic glove. This is a product of high technology and of high quality. The glove is antibacterial. It fights odour and protects the skin (hygienic).

Maintenance: Simply wash the gloves with soap under running warm water.

Characteristics:

- Good grip in wet
- Warm combed cotton lining
- Dexterity, comfort and suppleness
- Good resistance to abrasion
- Withstand a variety of chemicals and very low temperatures (down to -30 degrees Celsius), while maintaining its suppleness
- Total length: 31 cm (12 ¼ inches)

Available sizes: L and XL
