

In the field of personal protective equipment (PPE), the work gloves offered by BCL help improve the health and safety check of users, while increasing their productivity.

OUR MISSION: "Help make organizations more productive by protecting and optimizing the use of hands for their workers."

Since 1964

Welding and Workshop Glove Model S202DP Buffalo grain leather

Designed for:

- ❖ Welding
- ❖ Shop work

High quality buffalo leather glove that combines strength, flexibility and comfort.

For welding and shop work, this glove is an excellent choice.

Very soft and comfortable, it has a split leather cuff of 11 cm (4 1/4") with reinforcement for the protection of the arteries of the wrist.

Maintenance:

To clean these gloves, we recommend washing with mild soap.

Just rub them together under running water (like washing hands), and then let them dry at room temperature.

In this way, the leather will regain its original flexibility (this is one of the characteristics of a quality leather glove).

Characteristics:

- Buffalo grain leather
- Split leather cuff of 11 cm (4 1/4")
- Reinforcement for the protection of the arteries of the wrist
- Reinforced palm and thumb
- Gray coloured
- Heat resistance
- Superior wear resistance
- Suppleness

Available sizes: M, L and XL
